

Let's Get Walking

Join us each week to explore our local areas and the environment around us. Our walks will give you fun ideas of where to go and what to explore when out on walks with your family. Learning in an outdoor environment allows children to interact with the elements around us and helps them to gain an understanding of the world we live in. The sense of freedom playing outdoors brings is fantastic for a child's development, both physically and mentally.

Forest School

The sessions aim to teach children and adults key life skills from a range of Forest School activities, these will enable families to engage with the natural woodland by, den building, mud play, outdoor cooking, and natural resource craft making.

Growing Talk

Growing Talk is a session which focuses on increasing opportunities and playful interactions between children, their carer's and educators in order to enhance children's early communication and language learning experiences and grow children's talk. It's a 12 week program, which would benefit children with speech and language difficulties.
